Message In A Bottle

Avant

Woah (woah), woah oh
Woah (woah), woah oh
[Verse 1:]Lately you been acting all kind of strange (kind of strange)
(You are) treatin' me like you don't know my name (know my name)
Tryin' to figure out how we got this way (got this way)
And since I can't, baby I need you to take away this pain
[Chorus:]Oh, because no man wants to be on an island alone
And I feel like I can't breathe every since you been gone
So I'm writin' (writin') this letter (letter)
Explainin' (explainin') so much better (better)
I hope that it gets through, sendin' you this message in a bottle (a bottle... a bottle)
This message in a bottle (a bottle... a bottle)
This message in a bottle
[Verse 2:]Baby I feel like I'm losin' my mind (losin' my mind)
Oh, I see your mirage; every silhouette, last night
So, take this first class flight and get this weight off me
I'm supposed to be in paradise but it feels like misery, yeah
[Chorus:]
Girl, no man wants to be on an island alone (I don't want to be alone)
And I feel like I can't breathe every since you been gone (you're takin' my breath from me)
So I'm writin' (writin') this letter (letter)
Explainin' (explainin') so much better (better)
I hope that it gets through, sendin' you this message in a bottle (a bottle... a bottle)
This message in a bottle (a bottle... a bottle)
This message in a bottle
[Bridge:]Sendin' you this message baby (I can't live without your love)
Sendin' you this message baby (the only one that we can know)
Sendin' you this message baby (girl I need to help me, yeah)
Sendin' you this message baby (I'm tellin' you)
[Chorus:]No man wants to be on an island alone (No man on earth wants to be alone)
And I feel like I can't breathe every since you been gone (Can't breathe, without you here with me)
So I'm writin' (writin') this letter (letter)
Explainin' (explainin') so much better (better) (Write these letters to you baby)
I hope that it gets through, sending you this message in a bottle (a bottle... a bottle)
This message in a bottle (open the bottle, baby... a bottle)
This message in a bottle
Woah (woah), woah oh
Woah (woah), woah oh
Sendin' you this message baby...
