

All Or Nothing

Lost Frequencies

[Verse 1]

All or nothing

Know what you're doing, but the clock is ticking

Give it your best and then you're on to something

And keeps on getting closer, closer

All or nothing

If it's silent and your head just [?]

[?] not sure except the way you're heading

And now it's getting closer, closer[Chorus]

If you go all in, you got a lot to lose, my friend

All or nothing

If you say "all in", you don't get to choose again

All or nothing

[Verse 2]

All or nothing

Take a step forward and you know she's looking

Take a deep breath before you make it happen

Keeps on getting closer, closer[Chorus]

If you go all in, you got a lot to lose, my friend

All or nothing

If you say "all in", you don't get to choose again

All or nothingAll or nothing

If you go all in, you got a lot to lose, my friend

All or nothing

If you say "all in", you don't get to choose again

All or nothing

If you go all in, you got a lot to lose, my friend

All or nothing

If you say "all in", you don't get to choose again

All or nothing
