

# Let Me Be The One

Daryl Hall

We've been through love time and time again  
Tried for true love with enemies and friends  
Looked at romance every way  
Now my heart can't take that anymore, oh no, oh anyway  
Let me be the one, one with you  
Let me be the one to make your dreams come true  
All I wanna do is be with you one day  
Let me be the one, one heart, one way  
You've been let down, you've been left alone  
And remember when I look you home  
We looked at our lives every way  
Now our soul can't take anymore, oh no, oh no way  
Let me be the one, one with you  
Let me be the one to make your dreams come true  
All I wanna do is be with you one day  
Let me be the one, one heart, one heart  
I wanna know how you feel  
Let your whole heart get in the way  
If you don't know, think of something tender to say  
As long as it's me, then it's alright  
Let me be the one, one with you  
Let me be the one, one with you  
Let me be the one, one with you
