Seventeen Hours

Bis

Remember me?
I used to know film stars
I never made friends
I told you once to get into my car
I'll try it againDon't talk to the animals
The doctors says that you should stay home
He says you were a terrible mother
Blood and boneI said hello, seventeen hours agoWent to london on electric train
Used to go by air
When I inhaled I never felt pain
I shouldn't exhaleDon't talk to the animals
The doctor says you should stay home
He says you look like little miss spencer
Blood and bone, blood and boneI said hello, seventeen hours ago
