

Combat Lover (feat. Nina K)

[Nina Kinert](#)

Com-com-com-combat lover
You came here to get some more
Seems like you're turning worse than ever before
Hold hold hold hold my tongue
While I'm talking at you
You won't hear a word
I'm not what you came for
I'm nothing more than a girl You making my heart spin, you making it roll
I give you my body, I give you my soul
Be careful, don't be so vicious in me
My love can also be a killer machine
Say say say say your name
Where you come from
I will not tell a soul
I'm all that you wish for
On a night so cold
Com-com-com-combat lover
You taste every kiss
You dress so fine I'm under your spell, you make me think you're ok
You making my heart spin, you making it roll
I give you my body, I give you my soul
Be careful, don't be so vicious in me My love can also be a killer machine
Com-com-com-combat lover
You came here to get some more
Seems like I'm burning this is turning
Worse than before
Combat lover
You fake every time and every way
You whisper my name and you wish I'll obey Com-com-com-combat lover
Combat lover
You making my heart spin, you making it roll
I give you my body, I give you my soul
Be careful, don't be so vicious in me
My love can also be a killer machine
