

Last Temptation

Chickenfoot

Well, I've been a sinner
All of my days
Been a certified hell-hound
I've changed my ways Yeah, she's crawlin' round the floor on her hands and knees
Rollin' on her back tryin' to show it to me
Long black hair swinging out of control
All the temptation's messin' with my soul Feel like Adam sittin' naked 'neath the apple tree
I don't wanna go there
It's like a forked tongue serpent crawling all over me
I don't wanna know that
Oh yeah! I've been a sinner
All of my days
Been a certified hell-hound
I've changed my ways Smoke so thick you could cut it with a knife
She could make you feel happy or ruin your life
All lubed up from her head to her toes
All this temptation messin' with my soul Feel like Adam sittin' naked 'neath the apple tree
I don't wanna go there
It's like a forked tongue serpent crawling all over me
I don't wanna know that Sound like a 427 revvin' over the line
A hardcore stripper workin' overtime
Feel like honeysuckle drippin' from the vine
The last temptation that blowin' my mind I've been a sinner
All of my days
Been a certified hell-hound
I've changed my ways Now I'm runnin' out of money
I'm runnin' on rum
Waitin' on something that's never gonna come
I'm slippin' in the darkness
Slippin' out of sight
Gettin' out of here
In the middle of the night! Like Adam sittin' naked 'neath the apple tree
I don't wanna go there
Feel like a forked tongue serpent crawling over me
I don't wanna know that It's like a hardcore stripper workin' overtime
I don't wanna go there
It's like the last temptation that's blowin' my mind
I don't wanna go there Hey hey hey I don't wanna go there
No I ain't gonna go there I've been a sinner
