One Time

Smokey Robinson

No sooner had you come into my sight
When I thought I had been struck by a bolt of lightning
It wasn't in the forecast from the weatherman
I told myself, you got to get yourself together man
What a vibration to my brain it was
The thought to be with you was instantaneous
Something 'bout you woman, the fraud you call it
If what I see is what I get I'd like to touch it all
One time, baby
Could be the start of from now on
I don't know how you do what you do to me
But I know the feeling is getting through to me
The feeling that I have become a slave to
When I'm with you or without you, I still crave you
I hope that in the very near future
You'll tell me that the feeling is mutual
I want you baby, so much
Get you by yourself, touch to touch
One time, baby
Could be the start of from now on
We could be good, we could be the best
It's about time we put it to the test
My only request is one time, one time, one time
And maybe then we could make it happen
Again and again, again and again
Again and again, again and again
Told myself I think she needs some lovin', I'd like to give her it
Gonna do my best to deliver it
Said, I'd like to love you like you'd like it, you heart's desire

Love you so right till you never tire
And on and on at night now all the time
Keep it up, keep it real, keep me on your mind
One time, baby
One time, baby
One time, baby
One time, baby
You could never be a B call
If it's up to me you're a recall

Over and over and over again
Over and over and over again and again
One time, baby
One time, baby
One time, baby
One time, baby
One time, baby
One time, baby
Alright, all night, alright, all night
Try me one time, try me one time
One time, woman
One time, baby
Could be the start of from now on
One time, baby
One time, baby
One time, baby
One time, baby
One time, baby
One time, baby
