I Need Some Sleep

[Eels](#)

I need some sleep
You can't go on like this
I tried countin' sheep
But there's one I always missEveryone says, "I'm gettin' down too low"
Everyone says, "You just gotta let it go"
You just gotta let it go, you just gotta let it goI need some sleep
Time to put the old horse down
I'm in too deep
And the wheels keep spinnin' roundEveryone says, "I'm gettin' down too low"
Everyone says, "You just gotta let it go"
You just gotta let it go, you just gotta let it goYou just gotta let it go, you just gotta let it go
Just gotta let it go
