

# Fiend

## Mercenaries

It's the darkest place  
Like beneath the stairs  
The [Incomprehensible] it comes  
And it takes me everything, everything in sight  
    All through the night  
        Leaving scars  
        And crashing cars  
    Fiend for the fans and  
        Fodder for the press  
    Fiend for the fans and  
        Fodder for the press  
    Fiend for the fans and  
        Fodder for the press  
    Fiend for the fans and  
        Fodder for the press  
    Fiend for the fans and  
        Fodder for the press  
        You my life  
    For everyone to see  
        For you a charade  
        For me a disease  
    And everything in sight  
    All through the night  
        Leaving scars  
        And fucking stars  
    Still reasoning my life  
    Still reasoning my life  
    Still reasoning my life  
    Fiend for the fans and  
        Fodder for the press  
    Fiend for the fans and  
        Fodder for the press  
    Fiend for the fans and  
        Fodder for the press  
    Fiend for the fans and  
        Fodder for the press  
    Fiend for the fans and  
        Fodder for the press  
    Still reasoning my life  
    Still reasoning my life  
    Still reasoning my life  
        It's do or die  
        It's do or die

It's do or die  
It's do or die  
It's do or die  
It's do or die  
Not for me  
Still reasoning my life  
Still reasoning my life  
Still reasoning my life  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Still reasoning my life  
Still reasoning my life  
Still reasoning my life
