Let Your Heart Remember

Johnny Mathis

I'll let your heart remember
I'll let your heart remember
I'll let your heart rememberI'll let your heart remember
I'll let your heart rememberI was driving home
As I passed a street where we used to live
So I stopped my car, I had to see you
Time can forgiveThen I saw your face
I'm gonna take you to a placeIf you let your heart remember, oh baby
You gotta let your heart remember meLet your heart remember
Let your heart remember
Let your heart rememberJust a year ago you were in my arms
And we made a vow to stay together
To love each other, where are we now?
'Cause what we had that day we can have againIf you let your heart remember, oh baby
You gotta let your heart remember meLike the night we fell in love
We can go back, girl
I'll make it up to youLet your heart remember
Let your heart rememberIf you let your heart remember, baby please
Oh, you gotta let your heart remember me
If you let your heart remember, oh baby
Hey, you gotta let your heart remember meIf you let your heart remember
Let your heart remember me
Hey, you gotta let your heart remember me
If you let your heart remember
You gotta let your heart rememberYou gotta let your heart remember
