Brother, What Happened

Muddy Magnolias

What happened to this world
Yeah, uh

Brother what's going on
When did things start going wrong
Can't pretend we don't see where we are

You told me things were gonna change
But you just wanna get your way
Don't you know you're breaking my heart

Chorus
Tell me what happened to this world
We just don't know anymore
Tell me what happened to this world
We just don't love anymore

Time to check in with my ego
Just try to live and let it go
But that's easier said than done, I tell you now

Baby put your phone down
Won't you look me in my eyes now
It's been a while since I've seen you smile

Chorus

My mama told me, don't throw hate around
because there's room for us all in this world
We've got each other, my sisters and brothers
So take your love and spread it all around

Chorus

So give me that love
Give me that peace now
Give me that trust
Give me that lovin child
Show me that hope, yeah
Show me that joy now

Show me that love
Show me that lovin child

Chorus

Who gon' do it, if we don't do it (repeat)
