

"Cha!" Said the Kitty

Local H

Sucking like a crack hack
Feeling like an eight-track
Out of whackAll the times a clucking no
A suck it and a suck itI don't want to live with that
And you don't want to take it back
And I don't want to be a rat
And you don't want a kitty catReaching for the phone ring
Settle for the chump change
Settle downMake it like a godsend
Feeling like a has-been
Remember whenAll the times a clucking no
A suck it and a suck it
All the times a clucking no
A suck it and a suck itI don't want to live with that
And you don't want to take it back
And I don't want to be a rat
And you don't want a kitty cat
