Knockout Swerve

JÃ¡enette

He feel like I need him but I donâ€™t need him
I just need him to give me that money
All fun and games so we laugh and play
I throw them jabs and he think that shit funny
But I donâ€™t play, Iâ€™m â€˜bout the business, I donâ€™t kid
But the kids be up on me
Cuz I speak truth, itâ€™s all real
No fake titties, no ass, no fake nothing
And I wonâ€™t stop
Til Iâ€™m on top
Keep 'em on hard
Like to take charge
Bringing up my past, connect the dots
Say itâ€™s relevant, lead to the future
Think you just here for a quick fuck
And I get it the feeling is mutual
Oooohhh get up off me right nah
Nooooo we are not partners
Boy, you aint got no manners
Soooooooo speed right past ya

Swerve
Hit â€˜em with the curve
Watch him swerve
Hit â€˜em with the curve
Knockout - swerve
Hit â€˜em with the curve
Watch him swerve
Hit â€˜em with the curve
Knockout - swerve (2x)

Niggas be niggas, my filthy riches
Got me not really caring to lose ya
My heart is in my city, so I keep it with me
Turn It Up, lollapalooza
Yeah I give props to my own self
I gotta make sure that Iâ€™m not number two and
Make sure if Iâ€™m breaking, I break all the rules
Make sure if I'm caking, I donâ€™t bake with you

I'm a rare breed
Waist always on fleek
Yeah I write checks
Can't no nigga check me
Never hit my phone when you know you wrong
No no no I would not chase ya
Yeah I know you think you faded now
Til I come up and give you that taper
Oooohhh I ain't playing right nah
Nooooo this was the answer
Boy, forgot all of his manners
Soooooooo speed right past him

Swerve
Hit â€˜em with the curve
Watch him swerve
Hit â€˜em with the curve
Knockout - swerve
Hit â€˜em with the curve
Watch him swerve
Hit â€˜em with the curve
Knockout - swerve (2x)

I don't know why, why he keep on playing
Keep playing games with a game changer
No blinker on when I'm switching lanes
No standing zone when you pick a space
No panties on when I'm in his face
No gf zone when he on my page
No friending zone when she out the cage
Twining this Gemini can't be tamed
Ooohh
You feel it, it's fire... No no can't get right
Stay out of pocket, sitting here tryna pick fights
But I'm on to the next, yeah you how I take flight
All my profiles private, yeah he done lost sight

Swerve
Hit â€˜em with the curve
Watch him swerve
Hit â€˜em with the curve
Knockout - swerve
Hit â€˜em with the curve
Watch him swerve
Hit â€˜em with the curve

Knockout - swerve (2x)
