

(Afro)dejz(E)ak

Nubomb

Hook

Cause I

Can never tell you what it is

But you

Can tell me cause I know you feel it.

Might be hard to explain

Maybe itâ€™s in my brain

Iâ€™m an aphrodisiac

Iâ€™m an aphrodisiac

Verse 1

Some people say

You can feel a persons aura

So if itâ€™s true

Then I think I can fill up the room

Not trying to be cocky, but I know

One touch from me

Iâ€™ll have you feeling stoned

Warning if you get to close to me

Head to toe

Iâ€™ll have you out for me

Hook

Cause I

Can never tell you what it is

But you

Can tell me cause I know you feel it.

Might be hard to explain

Maybe itâ€™s in my brain

Iâ€™m an aphrodisiac

Iâ€™m an aphrodisiac

Verse 2

Iâ€™m warning you

Can never stop a wild heart

Like an animal

Running through the club

I am starved

Your essence in the air will give you up

And your body language will talk it up
Warning if you get to close to me, me
Hook
Cause I
Can never tell you what it is
But you
Can tell me cause I know you feel it.
Might be hard to explain
Maybe it's in my brain
I'm an aphrodisiac
I'm an aphrodisiac
Cause I
Can never tell you what it is
But you
Can tell me cause I know you feel it.
Might be hard to explain
Maybe it's in my brain
I'm an aphrodisiac
I'm an aphrodisiac

Verse 3

Twist up that Rockstar
With hypnotic and vodka
It's that aphrodisiac
That put burners on their back
Take notes
I'm trying to leave with ya
But flirt with me
Tease
Work them curves
Now breath
I'm no saint baby but I'm running with Trust
Put your ass on decks like trucks
You look like a heart breaker
If the car ain't Italian then save it
Take her capers to the Caymans
Raven in Vegas
Xn in Texas with strangers
Introduced by Berzerk and Dejzi
With a cup of Yak
Name starting with an afro bro
But yo this chick ain't black
I'm thinking model potential
Girl got Maxim credentials
Swag; yeah that's what I'm in to

Kiss you diggin that scent you sweat
When I make you wet
When I make you stretch,

Hook
Cause I
Can never tell you what it is
But you
Can tell me cause I know you feel it.
Might be hard to explain
Maybe it's in my brain
It's an aphrodisiac
It's an aphrodisiac
