She's Always Dancing

Neil Young & Crazy Horse

She wants to live without ties to bind her down
She wants to dance with her body left at ground
She wants to spin, and she lives in her own world
She wants to dream like she was a little girlShe's always dancing
She's always dancing
She's always dancing
She's always dancing
She's always dancingNow and foreverFrom palm to palm
From hand to hand
Floating in the air she looks to find him thereShe wants to live without ties to bind her down
She wants to dance with her body left at ground
She wants to spin, and she lives in her own world
She wants to dream like she was a little girlShe likes to burn
She likes to burn
She likes to burn
She likes to burn
She likes to burnOut on the edge
That's when she gives
That's where she lives
Floating in the smoke
She says it gives her hopeShe has the fire
She has the fire
She has the fire
She has the fire
She has the fireBut it's burning out
From hand to hand
From palm to palm
floating in the air, she tries to hold it thereShe wants to spin, and she lives in her own world
She wants to dream like she was a little girl
*She's always dancing//
She wants to live without ties to bind her down
*She's always dancing
She wants to dance with her body left at ground
She's always dancing
She's always dancing
She's always dancing
She's always dancing now and forever
