This Way

Milosh

Let's drink in the day, make it last
They have this way
Of being swallowed by the past
Let's breathe in each other
Not too fastThese scars from lovers
Look like scratches from strangers
Through what we have
This sweet, sweet love
This hard shell castI love to be this way
I need to be this way
I love to be this way
I need to be this wayI love to be this way
I need to be this way
I love to be this way
I need to be this way
