Turn Around

Terranova

Turn around and around
And it's always been the same
It's never gonna change
Never gonna changeTurn around and around
It's always been the same
It's never gonna change
It's never gonna changeWe are human, humanI'm a rock, you're a rock
He's a rock, she's a rock
They are rocks, we are rocks
We are rocks
We're a landslide, a landslideTurn around and around
And it's always been the same
And it's never gonna change
Never gonna changeTurn around and around
And it's always been the same
And it's never gonna change
Never gonna changeWe are human, humanI'm a grain, you're a grain
He's a grain, she's a grain
We are grains, they are grains
We are grains
We're a meadow in a desertTurn around and around
And it's always been the same
And it's never gonna change
Never gonna changeTurn around and around
And it's always been the same
It's never gonna change
No, it's never gonna changeWe are humanI am you, you are me
He is she, she is he
We are they, they are we
We are they
We are human, humanTurn around and around
And it's always been the same
And it's never gonna change
Never gonna changeTurn around and around
And it's always been the same
It's never gonna change
No, it's never gonna changeWe are human, humanI am you, you are me
He is she, she is he
We are they, they are we

They are we, we're the same
We are survivors, survivorsTurn around and around
And it's always been the same
And it's never gonna change
Never gonna changeTurn around and around
And it's always been the same
It's never gonna change
No, it's never gonna changeWe are human, human
We are human
