Reality Show

T-pain

We shape our lives by what we see on the TV
And now we're lost not knowing who or what to be
And all our lives, we run and hide
Never knowing what's the truth behind the lies
The big disguise, they've led us to believe
We're all living a reality show
And everyone is always acting their role
And all our lives in stereo
'Cause we're all living a reality show
I see the picture as it's painted on the screen
And I don't even know what's real or fantasy
But I realize all the lies
Can not change the way I choose to live my life
Televised for everyone to see
We're all living a reality show
And everyone is always acting their role
And all our lives in stereo
'Cause we're all living a reality show
And I'm trying not to notice
But I'm losing all my focus in my life
In my life
We're all living a reality show
And everyone is always acting their role
And all our lives in stereo
'Cause we're all living a reality show
