

When I'm With You

Westlife

When Im with you
When Im with you
When Im with you, you, you, you
When Im with you What goods a memory
Without you there with me?
The morning sun aint the same
Without you here You are the summer breeze
The wind blowing through the trees
You make the loneliness
All just disappear Nothing replaces your touch
Never stop believing in us
They try to break us
But we stand strong in love There'll be no distance too far
I gotta be where you are
Right where you are, yeah I dont wanna face this world alone
Without you by my side
You're the only one that makes it feel like home
I need you in my life When you're not around Im feeling
Like a piece of me is missing
When it feels like the day is closing in
Somehow I find the faith to make it through When Im with you
When Im with you
When Im with you, you, you, you
When Im with you Whats good a photograph
If you're not in the other half?
Why even dream
If Im not dreaming of you? You make me a better man
Promise Ill do all I can
And your love keeps me bringing me
Closer to the truth Nothing replaces your touch
Never stop believing in us
They try to break us
But we stand strong in love They'll be no distance too far
I gotta be where you are
Right where you are, yeah
Right where you are I dont wanna face this world alone
Without you by my side
You're the only one that makes it feel like home
I need you in my life When you're not around Im feeling

Like a piece of me is missing
When it feels like the day is closing in
Somehow I find the faith to make it through
When Im with you
When Im with you
When Im with you, you, you, you
When Im with you
When Im with you
When Im with you, you, you, you
I questioned whether time or fate
Would ever show me a sign?
The moment I saw you, thats when I knew
I feel it when Im with you
I dont wanna face this world alone
Without you by my side
Youre the only one that makes it feel like home
I need you in my life
When youre not around Im feeling
Like a piece of me is missing
When it feels like the day is closing in
Somehow I find the faith to make it through
When Im with you
When Im with you
When Im with you, you, you, you, you
When Im with you
When Im with you
When Im with you, you, you, you, you
When Im with you
