Slap In the Face (Rerecorded)

L.A. Guns

Kamikaze hit man
Love on the run
No mercy 4 the children
Of the night
you tangle on my brain
you drive me insane
I want what you got
No surprise
Cold sweat my hands shake
No point getting excited
She's on the case
Knock you off your rocker
Like a slap in the face
you fuss you fight
you think you got the right
Make love the camera never lies
We got the power
We got the moves
14 thousand killer watts
Just 2 make you groove
And it's just
Like smoking lightning
No point getting excited
She's on the case
Knock you off your rocker
Like a slap in the face
