

# Tag Along

[Samiam](#)

Tag along baby girl close behind tender sweet  
Tag along little feet all is well within your world  
Don't believe all you hear, never fear, never fear  
Shut your mouth tag along She's too young for that  
She don't know, don't know  
Don't know not yet  
Shut your mouth She's too young for that  
She don't know, don't know  
Don't know not yet  
I never even said a word But she can see right through my eyes  
Still too young to understand Should you go, should you go there?  
Should you go, should you go now?  
Everything, everything's alright  
Everything, everything's just fine
