

Do Me a Favor

Stone Sour

I am an anti everything man
A scab on the lips of the lord
My caustic dismissal
Is all I need to get you
To fall on your sword It's easy to live fast
It's harder to live
I woke up today with a gun
Ignoring your history
Is killing your past
You might run forever
If death never lasts So do me a favor your behavior
Is just a reason why there is no savior
When you're wasted let's face it
There's a side of you that
Knows you're a failure lives for the danger
Feels like an enemy but looks like a stranger The bell has rung on the titans
Everybody give us some room
Your so called set of fake morals
I can't tell the difference
Is that an excuse? The matter at hand
Is a matter of time
A sad little kid with broken toys
Your dogmatic license
Has kept you inside What will you do? when you're burning alive? So do me a favor your behavior
Is just a reason why there is no savior
When you're wasted let's face it
There's a side of you that
Knows you're a failure lives for the danger
Feels like an enemy but looks like a stranger So do me a favor your behavior
Is just a reason why there is no savior
When you're wasted let's face it
There's a side of you that
Knows you're a failure lives for the danger
Feels like an enemy but looks like a stranger I don't mind my old, dead story
And I don't want to lie to you
I know my glory
Will never be the same as truth
By now my only enemy is you I won't go slowly
I'll leave you behind

Leave you behind
Leave you behind
Leave you behind
