Definitely

Definitely When I see you I see sunshine

Clear skies of blue, every time I look at you

    You and I sippin' on red wine

I'm so much into you, girl, my love is overdue Definitely I want this to be

    So baby, come to me, you look full and so lovely, yeah

    Definitely I want this to be

You're like the air I breathe, you're my ebony If lovin' you is wrong I don't wanna be right, oh right

    And being bold as I am, I gonna tell you that you're dynamite

    It's not a secret love, so baby come on into the light, yeah

    Let me love you better So definitely I want this to be

    So baby, come to me, you look full and so lovely, yeah

    Definitely I want this to be

You're like the air I breathe, you're my ebony, yeah Definitely want

    Definitely want

    Definitely want

    Definitely want So when I see you I see sunshine

    Clear skies of blue, overtime I look at you

    You and I sippin' on red wine

I'm so much into you, girl my love is overdue Definitely I want this to be

    So baby, come to me, you look full and so lovely, yeah

    Definitely I want this to be

You're like the air I breathe, you're my ebony If lovin' you is wrong I don't wanna be right, oh right

    And being bold as I am, I gonna tell you that you're dynamite

    It's not a secret love, so baby come on into the light, yeah

    Let me love you better So definitely I want this to be

    So baby, come to me, you look full and so sexy, yeah Definitely want

    Definitely want

    Definitely want

    Definitely want
