

Dragged into the Grave

Carnifex

These are your inner demons
This is Death's cold embrace
This is everyone you've ever loved
Spitting in your fucking face It's time to reap what you have sown
Your lies (Your lies)
Are all that I've ever known
This is everything that should never be read Written alone in the arms of the Dead
This is a world where I am loved only by Death
Dragged into the grave;
An ocean of my own regret There is no peace
Only this grave
Rotting wounds burn my fucking remains This is regret for every mistake you've ever made
This is every lie you've ever told;
Putting you in an early grave This is Death's cold embrace
This is everyone you've ever loved
Spitting in your fucking face I don't give a fuck if you live or die
One thousand needles buried in your eyes
I wish I had the strength to slit my own throat
Remember when I said I want to watch myself choke
This is a nightmare that I've embraced
Because
I like the way blood tastes It's time to reap what you have sown
Your lies (Your lies)
Are all that I've ever known This is everything that should never be read
Written alone in the arms of the Dead
This is a world where I am loved only by death
Dragged into the grave;
An ocean of my own regret One thousand voices screaming
If Hell exists,
This is it
One thousand voices screaming
If Hell exists,
This is it
This is it
