

# Run Away

## Real McCoy

Run away, run away, run away and save your life  
Run away, run away, run away if you want to survive  
It's time to break free, oh oh oh oh, run away, oh oh oh oh  
You better break free, oh oh oh oh, run away, oh oh oh oh Money, sex in full control, a generation without soul  
Perfect people in a perfect world,  
Behind closed doors all in control  
Life, in a world of luxury,  
Cold cash money mentality  
You gotta keep the faith, you gotta keep the faith  
You'd better keep the faith and run away Money, sex in full control, look, big brother is watching you,  
Unlock your brain and save your soul,  
No more limits, no more curfew  
Life in the perfect system,  
Take a stand and fight for freedom  
Keep the faith, you gotta keep the faith  
You'd better keep the faith and run away
