Oh My

Ufo

Well, I'm struttin' up and down tryin' to get my face in town
Wonderin' where the hang on or turn each time around
Look in your mirror just to see my face
Two way time, baby, it's no disgrace
Oh my, oh how the times have changed
Oh my, oh how the times have changed
Ladies used to dancin' but I move for real
Lookin' for reaction, something you can feel
When you dance I move and they look me in the eye
Two way time, baby, it's no lie
Oh my, oh how the times have changed
Oh my, oh how the times have changed
Oh my, oh how the times have changed
Oh my, oh how the times have changed
Oh my, oh how the times have changed
Oh my, oh how the times have changed
Oh my, oh how the times have changed
