

Pasodobles

Guayacán

Pasodobles

(Richard Starkey/Mark Hudson/Gary Burr/Steve Dudas/Dean Grakal) When I was walking down the street in
Spain

I met a girl who would not say her name

But all was not lost to circumstance

Later on she taught me how to dance

Her pasodobles

I love where I am today

Strangers in perfect motion

Down by the Spanish ocean

El pasodobles Lights were shining low the music loud

We danced so close and slow we drew a cry

We were two together like candle's bind

We became one and that's how I learnt

Her pasodobles

I love where I am today

Strangers in perfect motion

Down by the Spanish ocean

El pasodobles In the drift she said we did

But of course you know we didn't

She had dress she said

That I tried too far

But she always kept them hidden At the Bay of Biscay I had no regrets

And as I sailed away I could not forget

The pasodobles

I love where we are today

Strangers in perfect motion

Down by the Spanish ocean

The pasodobles Translated by J. Bartu
