

Cold Turkey

Crummy Stuff

Cold turkey, you can't expect me to quit, do you baby?

Cold turkey, feelings don't go away so easy

Just a little more time and I swear I'll leave you alone

But tonight I got this jones coming down

It's 3 o'clock and I woke up with the shakes

So I called you up for the remedy

I know I woke ya, get on up I'm coming over

And don't be acting like you don't remember me

I want some of that good, good loving

Like the kind that we used to making

How I used to make you shake for hours after, yeah

Now I don't know what you did to me

You must've put something in my food

'Cause baby you got me all caught up in the rapture, yeah

I can't go

Cold turkey, you can't expect me to quit, do you baby?

Cold turkey, feelings don't go away so easy

Just a little more time and I swear I'll leave you alone

But tonight I got this jones coming down

I'm finding out real quick, I just can't have anybody in my bedroom

'Cause when I want it, it's got to be you right

And though I threw away your number and I tried not to remember

Got it locked inside my brain memorized, showing off

Don't tell me that you don't recall all the fun that we used to have

And how I used to make you laugh and cry sometimes sugar

Now, I don't believe you when you say

That you ain't really thinking about me

?Cause baby girl you're steadily running through my mind

And I can't, I can't go

Cold turkey, you can't expect me to quit now baby

Cold turkey, feelings don't go away so easy

Just a little more time and I swear I'll leave you alone

But tonight I got this jones coming down

It keeps calling me right back, I keep thinking about the past

I don't wanna be with nobody but you, no man

I miss your rhythm and groove miss, don't know how you do it

All I know is I'm addicted to your love

And I can't go

Cold turkey, you can't expect me to quit, do you baby?

Cold turkey, feelings don't go away so easy
Just a little more time and I swear I'll leave you alone
But tonight I got this jones coming down
Understand what I'm saying
Cold turkey, you can't expect me to quit now baby
Cold turkey, feelings don't go away so easy
Just a little more time and I swear I'll leave you alone
But tonight I got this jones coming down, coming down
Coming down, coming down, coming down, coming down
