

# This Is the Other Side of Life

## Golden Earring

From the Album:

\* Seven tears Don't let your head hang down

Try to raise it up to the sky

This is life my friend

I know it ain't far from dying

Don't hide in mist all day and night

To fade your scars and pain away

The world is glass my friend

Look at the other side of life today

Don't let your head hang down

Try to raise it up to the sky

This is life my friend

I know it ain't far from dying

Don't hide in mist all day and night

To fade your scars and pain away

The world is glass my friend

Look at the other side of life today
