

# Wild Heart

Stevie Nicks

Something in my heart died last night  
Just one more chip off an already broken heart  
I think the heart broke long ago  
That's when I needed you That's when I needed you most  
That's when I needed you  
When I needed you most I run around like a spirit in flight  
Fearlessness is fearlessness  
I will not forget this night  
Dare my wild heart, dare my wild heart Where is the reason?  
Don't blame it on me, blame it on my wild heart  
As to the seasons  
You fought from the beginning long before I knew it  
There was a danger  
And the danger was to fall in love In dark sorrow they gaze down into the darkest heart  
If I leave you, you say not even you can tear us apart, woh  
Say you're leaving, you say you don't even know  
How to start, how to start, how to start Well, believe it then and don't blame it on my soul  
Blame it on my wild heart, on my wild heart Fire on fire, rain on my face  
Fever goes higher, what can you do?  
Wild in the darkest places in your mind  
That's where I needed you Where I needed you most  
That's where I needed you  
Where I needed you most Where is the reason?  
Well, don't blame it on me, blame it on my wild heart  
There is a reason  
Why even the angels don't give it up at all Where are the children?  
Well, are they hopelessly enchanted? Blame it on the angels  
Where are the reasons?  
Don't blame it on us, blame it on our wild heart  
Wild heart, wild heart, wild heart On my wild heart, on my wild heart  
Even in the darkest places of your mind  
Even in the darkest places of your mind Where are the children?  
Are they hopelessly enchanted?  
Wild in the darkest places of your mind  
No, don't blame it on me, baby  
Blame it on my wild heart Blame it on my wild heart  
Blame it on my wild heart  
Blame it on my wild heart  
Blame it on my wild, wild, wild, wild heart

Blame it on my wild heart, blame it  
Even in the darkest places of your mind
