Strung

Sense Field

I present to you the present
I present to you my gift here and now
I know that I'm hearing it now
I present to you my undying love
Eyes with sight farther than I could ever seeI present to you my faith in you
This is the biggest part of me
This is the biggest part of me
Here is the biggest part of me
All the love I've had at onceWith all my heart and with all my soul
My spirit is the biggest part of me
All the love I've had at once
With all your heart and with all your soul
The Great Spirit is here with me, here with meI present to you my heart
Will you help me carry it?
It's gotten so heavy over the summers
This is the best one of my life
I now leave you with my soul
Be gentle it's all I have left
