Say You'll Be Mine

La Bouche

You've got everything Ive been dreamin' of
And I will never get enough of your sweet love
And now I need you boy
In my worldYou make all the dark clouds disappear
You keep tellin' me all the words I always want to hear
And now I need you boy
In my worldCould it be magic?
I found out what love can do
Could it be magic?
I'll do anything for youSay you'll be mine until the end
Say you could never lose your lovin' feelin'
In a million yearsSay you'll be mine until the end
Say you've been searchin' for a world of passion
And for sweet obsession all the time
Say you'll be mineTake it as it is and picture this
I'm on fire and I shiver every time we kiss
And now I need you boy
In my worldOnce you've had a tender touch of paradise
You wanna keep the pace
You make me realize how much I need you boy
In my worldCould it be magic?
I found what love can do
Could it be magic?
I'd do anything for youSay you'll be mine until the end
Say you could never lose your lovin' feelin'
In a million yearsSay you'll be mine until the end
Say you've been searchin' for a world of passion
And for sweet obsession all the time
Say you'll be mineSay you'll be mine until the end
Say you could never lose your lovin' feelin'
In a million yearsSay you'll be mine until the end
Say you've been searchin' for this world of passion
And for sweet obsession all the time
Say you'll be mineSay you'll be mine until the end
Say you could never lose your lovin' feelin'
In a million years
Say you'll be mine until the end
