

Girls From Texas (feat. Lyle Lovett)

Pat Green

Girls from Georgia are sweeter than peaches
Ones from California are made for bathing suits and beaches
Minnesota gals sure fill out a sweater
But the girls from Texas are just a little bit betterMississippi's got all them delta queens
And Louisiana Cajun girls beat all I've ever seen
Ever kiss a girl from Kansas you damn sure won't forget her
But the girls from Texas are just a little bit betterFeel the southern drawl from the ones in Arkansas
They're so sexy in New Mexico
But the only ten I see ain't in Tennessee
She's waiting for me in San AntonioUp in Oklahoma they're more than just OK
They don't come more fun than Alabama
But if you can find a lone-star gal boy you better get'r
Cause the girls from Texas are just a little bit betterIt don't get no finer than the girls in Carolina
I'm talking North, I'm talking south
But the only ten I see ain't in Tennessee
In ol' cow townUp in Colorado they can melt snow
Out in Nevada they're always putting on a show
New York's got the fashion, Florida's got the weather
But the girls from Texas are just a little bit betterOnce you cross that red river hoss
You'll stay there forever
'Cause the girls in Texas are just a little bit better
