

# God Is

## Holly Starr

When all you see, Is here and now  
When everything is crumbling, falling to the ground  
This is just a moment, This is not forever  
I know it seems impossible and all your hope is gone.Chorus:  
But God is... God is...  
Greater than the fear you're facing, greater than the storm that's raging  
God is... God is...  
with you when you cry, so cry out his name  
Cause God is greater than the pain.He knows the trials, His children face  
He knows the tears that fall that we all have to taste  
But don't you dare let go now, don't let the candle blow out  
His love is strong, so just hold on cause he is with you through it allChorus repeatBridge:  
He is mighty, More than able,  
to rescue and restore the ones he loves  
He is a refuge and a savior  
A saviorChorus repeatGod is greater than the pain
