Missing You

Beverley Craven

The dreams I have are unrepeatable
And you always play a starring role
I'm just glad to have the time with you
It's the only place where we can goI walk around the next day in a daze
Flashes of a feeling or your face
Three photographs, a letter and my memories
Are all I have to fill this spaceNow you've gone, now you've gone
But I keep missing you, I keep missing you
Now you've gone, now you've gone
But I keep missing you, I keep missing youSometimes I laugh the way you used to laugh
Or say the things you used to say
If you can see me now just give me a sign
'Cause I can't believe you've really gone awayNow you've gone, now you've gone
But I keep missing you, I keep missing you
Now you've gone, now you've gone
I keep missing you, I keep missing youThe way you tossed your hair and fooled around
Will we ever meet again?Now you've gone, now you've gone
But I keep missing you, I keep missing you
Now you've gone, now you've gone
But I keep missing you, I keep missing youNow you've gone
And I keep missing you
Now you've gone
I keep missing you
