Zero Fucks Given

Sinners Are Winners

I'm not a hero, I'm a zero born into the darkness like a weirdo. Throw your fucking hands up like you don't care, middle fingers up like you don't care [Nope! No fucks I give, fuck my reputation you can swallow my kids damn it feels good to nasty all my bad bitches love to call me daddy. In loving memory of when I once cared put your middle fingers in the air in loving memory of when I once cared put your middle fingers in the fucking air [hated by many, trash talked by some, guess how many fucks I give it's less than one]x2]chorus. Even the fuck store is out of fucks, I called them and they said "Oh we're fresh out of fucks" maybe I have one SIKE! Gave it to your bitch have fun the next time you give her a little kiss.[repeat chorus] [Now you see I don't give fucks now you see there are none I don't care about your bullshit I'm 100 percent done]x3 Stress less, care less, stress is caused by giving a fuck. Develop an inability to not care about someone's opinion over you. By you giving a fuck you are allowing that person to have power over you. The less fucks you give, the happier you'll live. So repeat these lines after me. In loving memory of when I once cared put your middle fingers in the air in loving memory of when I once cared put your middle fingers in the fucking air! [Hated by many, trash talked by some, guess how many fucks I give it's less than one]x4
