Navigate

Ghettobillies

Everybody's back in town
Give me the armor and let me prepare
It can be easy or difficult to steer your heart and breath
Death cheats death it's clear
Time and tide wait for no man
Slowly realize as fast as you can
Thought I saw a glimpse of how you were at five
Ain't it strange how these things take you by surprise
We are drifting on a deep sea
And I can't navigate the stars like my father
Oh we're drifting out to sea into deep water
If we're scared, it puts us under
The more you talk, the less you mean
You told me that when I was just 17
When it sinks in you will not always be here
Funny how all your small worries disappear
We are drifting on the deep sea

And I can't navigate the stars like my father
Oh we're drifting out to sea into deep water
Oh we're drifting out to sea into deep water
Oh we're drifting out to sea into deep water
Oh we're drifting out to sea into deep water
Oh we're drifting out to sea into deep water
Oh we're drifting out to sea into deep water
If we're scared it puts us under
If you're thinking what you know is true then tell them
Let them know this
If your turn goes , ask the question
Would you tell them, know you're whole dear
Ooo ---oooo
We are drifting on the deep sea
And I can't navigate the stars like my father
Oh we're drifting out to sea into deep water
Oh we're drifting out to sea into deep water
Oh we're drifting out to sea into deep water
Oh we're drifting out to sea into deep water
