

Changed

Bread of Stone

Lights down fading low
I caught a fire the world must know
A flash in the dark I'm ready
Nothing can stop it now
It's burning fast
It's burning brightSomething changed tonight
I can see tomorrow
Something changed the night
There's a light to follow
Falling in love...
Falling in love...
Believers and dreamers unite
A part of the movement of hope tonight
Nothing can stop it now
It's burning fast it's burning brightWe are changed tonight
We are the new tomorrow
We are the change tonight
For all the world to follow
We are the love...
We are the love...This goes out to all who ever wonder
When the lights go dark
You're down and going under
Take these hands and watch before our very eyes
And everything can change tonight
We are changed tonight
We are the new tomorrow
We are the change tonight
There's a light to follow
We are changed tonight
We are the new tomorrow
We are the change tonight
There's a light to follow
We are the love...
We are the love...
We are the love...
We are the love...
