House of Suffering

Bad Brains

In this house of suffering
I gotta let some joy in
I hear that freedom will winOh, where, oh, where can Jah love be now?
My dear, it's here in the underground
Inside the hearts of your own childrenIn this house of suffering
I spiritualogic grinnin'
One way grace is my friend
To conquer doom and sinAnd all the nations lying
While all our people crying
And they stop at nothing
Nothing, nothing
