Feels Like Glue

Embrace

It feels like glue I'm in
And part of me died and made you king
Of all you see
And all I know now
Is I never grieved
It's never been in me
So get out of the fast lane if you see me
I'm heading your way and I'm speeding
I didn't know the dice was rolling
'Til my luck ran out
So get out of the fast lane if you see me
I'm heading your way and I'm speeding
And I didn't know the dice was rolling
'Til my luck ran out again
It feels like glue I'm in and life is hell
It's always happening to someone else
And all I know now is I stayed myself
Whenever it came to it
So get out of the fast lane if you see me
I'm heading your way and I'm speeding
I didn't know the dice was rolling

'Til my luck ran out
So get out of the fast lane if you see me
I'm heading your way and I'm speeding
And I didn't know the dice was rolling
'Til my luck ran out again
And you light up my life
When you stand at my side
And you know but you don't let go it's always in your mind
It's you I've found
It's you I've found
So get out of the fast lane if you see me
I'm heading your way and I'm speeding
I didn't know the dice was rolling
'Til my luck ran out
So get out of the fast lane if you see me
I'm heading your way and I'm speeding
And I didn't know the dice was rolling

'Til my luck ran out again
Blue skies
