Missionaries Need Missionaries Too

Scott Michael Bennett

Missionaries Need Missionaries Too
Somewhere on this earth
in the heart of a foreign land
a family with a passion
is living their mission plan
Bringing Gods truth
to a hungry thirsty tribe
knowing well their lives
are always on the line

Missionaries need missionaries too
they need the prayers of loved ones
they need love from me and you
when they just like christ
make the ultimate sacrifice
someday in heaven they'll thank you
because you're a missionary too

Somewhere in jungle skies
is a plane thatâ€™s saving lives
bringing cures to ease the pain
bringing sight to darkened eyes
they carry on their work
through the storms
and through the night
never ending labors to bring souls the light

Missionaries need missionaries too
they need the prayers of loved ones
they need love from me and you
when they just like christ
make the ultimate sacrifice
someday in heaven they'll thank you
for you're a missionary too

In the streets or a village
their work may go unseen
for the sake of Christ
they sacrifice their own needs
remind them that you love them

and give them what you can
cause your mission field is very real
help them carry out Godâ€™s plan

Missionaries need missionaries too
they need the prayers of loved ones
they need love from me and you
when they just like christ
make the ultimate sacrifice

they need the prayers of loved ones
they need love from me and you
when they just like christ
make a loving sacrifice
someday in heaven
they'll thank you
for the things your prayers have brought them through
your mission is accomplished
oh thank you
you're a missionary too
you're a missionary too
you're a missionary too
