

# Best Thing

Sykes

What makes another day livable  
It's all in the all in the mind  
If we could take away visual  
And livin' the hard life There's a pardon in paradise  
We need it to survive  
There's a pardon in paradise Like it's the best thing  
'Cause it was the longest day I've added up to something  
Like it's the best thing  
That anyone could ever dream about in their whole life Keepin' it on and now you've added up to something  
Like it's the best thing  
That anyone could ever dream about in their whole life  
Being alone is unthinkable  
It's harder it's harder to hide  
What if we leave the material and repaint the skyline And there's a pardon in paradise  
The engine of the life  
There's a pardon in paradise Like it's the best thing  
'Cause it was the longest day I've added up to something  
Like it's the best thing  
That anyone could ever dream about in their whole life Keepin' it on and now you've added up to something Uh  
Uh oh It's the best thing  
'Cause it was the longest day I've added up to something  
Like it's the best thing  
That anyone could ever dream about in their whole life  
Keepin' it on and now you've added up to something  
Like it's the best thing  
That anyone could ever dream about in their whole life  
Like it's the best thing  
That anyone could ever dream about in their whole life
