California

The Adicts

California sun
Shining through the window
Beating up and down
Like a yellow yo-yo
It's just the sunCalifornia
CaliforniaAnnie's got a gun
She knows how to use it
Points it at the sun
It's a California shoot out
She's got a gunCalifornia
CaliforniaCalifornia, California
California, CaliforniaCalifornia, California
California, CaliforniaCalifornia sunset
Orange skies by day
California dreaming
The California waySmoke is another stranger
Lying by the pool
Dying to be near you
Ow, we look so cool
Yes, we doCalifornia
California
California
CaliforniaCalifornia
California
California
California
