

# California

## The Adicts

California sun  
Shining through the window  
Beating up and down  
Like a yellow yo-yo  
It's just the sunCalifornia  
CaliforniaAnnie's got a gun  
She knows how to use it  
Points it at the sun  
It's a California shoot out  
She's got a gunCalifornia  
CaliforniaCalifornia, California  
California, CaliforniaCalifornia, California  
California, CaliforniaCalifornia sunset  
Orange skies by day  
California dreaming  
The California waySmoke is another stranger  
Lying by the pool  
Dying to be near you  
Ow, we look so cool  
Yes, we doCalifornia  
California  
California  
CaliforniaCalifornia  
California  
California  
California
