

Heaven

Vivian Green

It's just a little huddle, a little trouble
Nothing we can't fix
It will build us up, even make us stronger
If we can get over it
Don't even wanna think about it baby
The thought of you not being here
Is like the world coming to an end
And I know I just can't handle it Cause its light (cold light)
Tearin away a piece of me
And it's like (like)
Telling me I can't eat or sleep
And it's like
Just like taking away the air I breathe
Didn't come this far to lose it all
Didn't make it up to heaven just to fall Remember when we touched the stars
Remember
Remember when you stole my heart
Remember
Remember when I walked away
Remember
And you did everything to make me stay Remember, I remember
Can't let it fall apart
Didn't come this far to lose it all
Didn't make it up to heaven just to fall So to be in heaven, there's nothing better
It's so nice up here
We worked pretty hard to get where we are
And I'm not about to cry no tears
Ain't losing you over this
The thought, I just can't take it
It's like the world coming to an end
Losing my life, my love and my best friend Cause its light
Tearin away a piece of me
And it's like (uh it's like)
Telling me I can't eat or sleep
And it's like (uh it's like)
Taking away the air I breathe
Didn't come this far to lose it all
Didn't make it up to heaven just to fall Remember when we touched the stars
Remember

Remember when you stole my heart
I remember
Remember when I walked away
Remember
And you did everything to make me stay Remember, I remember
Can't let it fall apart
Didn't come this far to lose it all
Didn't make it up to heaven just to fall Ain't nobody love you like me baby
Yea nobody love me like you
So once that I get there
Up here in heaven
Can't lose each other now
Cause it's sunshine all way down Cause it's light
Tearin away a piece of me
And it's like (uh it's like)
Telling me I can't eat or sleep
And it's like (uh it's like)
Taking away the air I breathe
Didn't come this far to lose it all
Didn't make it up to heaven just to fall Remember
Remember when we touched the stars
Remember
Remember when you stole my heart
I remember
Remember when I walked away
Remember
And you did everything to make me stay Remember, I remember
Can't let it fall apart
Didn't come this far to lose it all
Didn't make it up to heaven just to fall I remember
Remember when we touched the stars
Remember
Remember when you stole my heart
I remember
Remember when I walked away
Remember
And you did everything to make me stay Remember, I remember
Can't let it fall apart
Didn't come this far to lose it all
Didn't make it up to heaven just to fall
