

# Songs of the Ocean

## The Soundtrack of Our Lives

[Science officer:]

As we return to earth, memories are haunting me  
My strange rebirth, coming back to life  
I remember the dark and how my friends set me free  
I sacrificed my life so they could survive

[Communications officer:]

There's something wrong on planet Earth  
We can not reach our world  
Some strange device slowly emerged  
Can you hear the cries?

There's something wrong, what can we do?

We can't communicate

All systems fail, all power too

We can't reply

[Science officer:]

It must be unaware of the damage it's creating  
They are reaching out to the seven seas  
It's not with man they're communicating  
We're going back in time, back in history

[Captain:]

We shape life, we travel space  
But we don't know the words to the songs of the ocean

[Doctor:]

We survived the 'human race'  
But we don't know the words to the songs of the ocean

[Science officer: Dan]

[Communications officer: Floor]

[Captain: Damian]

[Doctor: Russell]
