Sweet Dreams

Angel Olsen

Every time I close my eyes
Something small within me dies
Can't say if its dark or bright
But its all I've ever known
And when I sleep
I sleep aloneAlone
AloneEvery time I take a breath
Something once living inside me has left
Yes its alive but its just past through
Its just left me and its just left youOn your own
On your ownAnd I love you most
I love you most
When I first found love in my soul
And I'll give to you
Give it up to you
When I first find it in my self
And the time will come for everyone
For everyone to know
Yes the time will come for everyone
For everyone to goAnd say goodbye
And say goodbye
And say goodbye
Sweet dreams
Sleep tight
Sleep tight
