## Zebrahead

I drove really fast before I hit the wall I was punch drunk, spinning round, heading for a fall Do or die now, got scared, so I stalled You can have it all Your eyes inside the back of my mind Stars collide to see who outshines Your eyes inside the back of my mind It's making me blindWe can hate, we can hate each other We can be down then fuck one another We can hold it up, then set it on fire Life is sacrifice and you can be a martyrBut it's more than I can stand when you're looking down on me 'Cause I can't live up to you, that makes me incomplete Never wanted anything more So I'll just say goodbye and watch you walk out the doorI want to be, I want to be all you want me to be I want to be, I want to be all you think that you see Would you leave me here where nobody cares? Would you leave me, leave me here where nobody cares? I tried really hard not to care at all Medicate myself, Xanax, alcohol My admissions made me feel so small You can keep it all Your eyes inside the back of my mind Stars collide to see who outshines Your eyes inside the back of my mind It's making me blindI can change, we can change for each other We can let go and accept one another We can tear it down to the ground and start over Life is compromise, life is compromiseSo if I let you down then I'll pick you up again In the end Suspend confidence in me to come through To be who I want to be and to do what I want to do Never turn my back on you, on youI want to be, I want to be all you want me to be I want to be, I want to be all you think that you see Would you leave me here where nobody cares? Would you leave me, leave me here where nobody cares? I want to be, I want to be all you want me to be I want to be, I want to be all you think that you see Would you leave me here where nobody cares? Would you leave me, leave me here where nobody cares? I want to be, I want to be all you want me to be I want to be, I want to be all you think that you see Would you leave me here where nobody cares? Would you leave me, leave me here where nobody cares?
