Electric Trains

Baxendale

[electric trains, electric trains]
[electric trains, electric trains]
[electric trains, electric trains]
[electric trains, electric trains]

you know I, I think it started in the cinema
after an hour with you in the dark
but then you went away
and now, my sister's having babies
while I'm just sat here being lazy
but honey everything's OK

(You and I, are held together by electric tains)
we're getting closer
(You and I, are held together by a bigger brain)
you've won me over
[electric trains, electric trains]
[electric trains, electric trains]

You know I, I sometimes get up with the milkmen
whenever you go home again, I can't seem to relax
and sometimes, when I'm feeling like a has been
like I could run off with the net ball team
you always seem to bring me back

(You and I, are held together by electric tains)
we're getting closer
(You and I, are held together by a bigger brain)
you've won me over

[electric trains, electric trains]
[electric trains, electric trains]

Oh they're pulling me through, they bring me close to you
I'm starting to slide
(I'm coming back)
hrough the countryside to you
(I'm back on track)

(You and I, are held together by electric tains)

they keep on coming
(You and I, are held together by a bigger brain)
just keep...

[electric trains, electric trains]
[electric trains, electric trains]
...
