Lay Your Body Down

King Kendall

Verse 1:

ew tonight girl lets make it special
hop up on yo body like i hop on instrumentals
kush has got me feeling right so lets make it official
lay your body down and do all the things you're into

can't nobody put it down like me
can't nobody do your body no can't do it like me (ugh yea)
we about to mess up all these sheets
I'm about to have your body shaking when you think of me
as we

Hook/Chorus:
Roll up
pass it round
time to lay your body down (now we)

Pour up another round
time to lay your body down (as we)

Roll up
pass it round
time to lay your body down (now we)

Pour up another round
time to lay your body down (as we)

Verse 2:

Pretty baby Pretty baby
I'm about to I'm about to drive your body crazy
we don't have much time for conversation
but i can hear your body calling and she said she's waiting
for me
i can hear your body calling me (for me)
for me
its calling for me
calling for me

ew girl just face it
im so far from basic
its going down in this basement
i said ew girl just face it
you're so glad you made it
now its time to get faded
as we

Hook/Chorus:
Roll up
pass it round
time to lay your body down (now we)

Pour up another round
time to lay your body down (as we)

Roll up
pass it round
time to lay your body down (now we)

Pour up another round
time to lay your body down (as we)

Radio smasher, ask your girl she'll tell ya
ya ya
